Instructions for Use	<p>Dilute 1:20 to 1:10 with water for washing aluminum trucks, trailers, and railroad cars. Use with high pressure spray equipment. Follow up with water rinse. For brightening aluminum parts, use formula as is or diluted, depending upon the condition of the surface and alloys being cleaned. Product is highly acidic. Use appropriate personal protective wear (acid resistant gloves, clothing and face shield/goggles).</p> <p>Excellent for brightening of aluminum and stainless steel surfaces. Product effectively removes oxides from metal surfaces. BIO-TERGE® PAS-8S gives a foam blanket, which allows longer contact time when sprayed on vertical surfaces during vehicle washing.</p>	
External Comment	<p>Marketing Notes: When used as per Stepan's recommendation, this formulation is VOC-compliant with U.S. Federal and California Air Resource Board (CARB) Consumer Products regulation for non-aerosol, motor vehicle wash (0.2% VOC limit as of December 31, 2012). BIO-TERGE® PAS-8S is an approved ingredient on www.cleangredients.org. This formulation does not contain Nonylphenol Ethoxylates (NPEs).</p>
